FRANCHISE BANQUET

A Successful Affair—Heavy Firing by Suffragettes and Suffragers—One Lone Negative

The "Franchise Banquet" at Odd Fellows Hall, under the auspices of the W. C. T. U., last Tuesday evening, was a success financially and otherwise. One hundred and ten guests sat down to a very fine dinner, after the discussion of which the audience was entertained by an unusually interesting program. The program was opened by the singing by the audience of "John Brown," followed by a piano solo by Miss Dorothy Lee. Mrs. Gaylord, president of the local organization, then made some appropriate remarks in introducing Rev. J. H. Humphreys, who acted as toastmaster during the evening in a very happy manner.

The first one to respond to a toast was Rev. S. L. Ward; subject, "Why I Believe in Woman Suffrage." In the absence of Rev. Haines, Rev. J. N. Marsh, a newcomer, made a brief address. A vocal solo by Mr. H. K. Taylor pleased the audience. Mrs. Mary H. Gridley, being unable to be present, had sent in her paper on "The Factor That Counts," which was read by Mrs. Samuel Dick. Mr. W. J. Ellis played a piano solo. Sidney Dell, Esq., followed with the lengthiest address of the evening upon the subject, "The Right and Duty of Women to Vote." As all of the speakers were limited to five minutes, except the one taking the negative, who was generously allowed twice that much time, Mr. Dell's time had to be extended, and the end of his paper was cut off by the chairman's bell. Dr. Jessie Russell spoke on the topic, "Why Mothers Wish to Vote." Miss Ethel Sinclair then favored the audience with a piano solo. Mr. J. C. Sherer then presented the side of the opponents of equal suffrage in a ten minutes talk, a variation from the general sentiment of the other speakers which seemed to be appreciated. Dr. Laura Look, of Los Angeles, chairman of the legislative committee of the W. C. T. U., then spoke on "Our Opponents," and was followed by Mrs. Julia B. Phelps, county president, who spoke of "California, the Golden West." The closing speech was made by the veteran platform speaker, Mrs. J. N. Dawson, on "Woman's Inherent Right to Equal Rights With Man." A piano solo by Mr. Ellis closed the evening's entertainment. During Mrs. Dawson's address she called upon the voters present to hold up hands as an evidence of intention to vote for the amendment next October, and about one-half of the men present complied.

A resolution passed requesting Mr. Dell to have his paper published in the NEWS, which on account of its length is impracticable.

Glendale Pharmacy Installs an Up-to-date Fountain

Frank Zerr, the Glendale Pharmacy man, has put in a new soda water fountain, which is one of the most complete of its kind and has several unique features. The counter has a marble base and cover, the sides being of mahogany veneer. The same effect is worked out about the large mirror and cupboards in the rear. On the inside of the counter are a half dozen silver-plated syrup faucets or pumps, set so that pressure on the top of one of them lets down just the right quantity of syrup. The real "fountain" consists of a combined electric motor and tank set in the background that works automatically, forcing water and gas into the tank in proper proportions whenever needed, and has a capacity of carbonating twelve gallons of water in a half hour. Underneath the syrup tanks is a German silver drip board, and set in this is an automatic glass washer, the glass being placed in the receptacle, where it immediately is revolved rapidly, and receives a spray of water both inside and out. The arrangement for cooling the water works on the same principle as that in use in the hot water boiler, a system of pipe coils bedded in ice, the result being a uniform low temperature secured without any handling of ice except to charge the ice chest.

Mr. Zerr informs the public that he keeps ice water constantly on tap and everybody will be furnished free.

Wosko, Cal., June 5, 1911.

Editor NEWS:
We wish the NEWS to express for us our heartfelt thanks to our many friends in Glendale who assisted in filling the large box which was so thankfully received by us after our great loss by fire.

GLENDALE UNION HIGH SCHOOL

The Union High school was organized in 1901 with twenty-eight students enrolled, and for the first year held its sessions in the present Glendale Sanitarium. In 1902, with an increase to forty-seven pupils, the school established itself in its old home on the corner of Fourth street and Brand boulevard, the districts combining being Glendale, West Glendale, Tropico, Eagle Rock, Ivanhoe, La Crescenta and Burbank, which has since with-laving, leaving at the present moment the first six districts and a newly formed one, Washington Park.

During the school year 1907 and 1908 it became apparent that the building was inadequate to meet the growth of the school, consequently in September of 1909 the Glendale Union high school moved into its present stately quarters on Fifth street. The enrollment at that time was 166, which had grown at the end of the term to 202. The present enrollment is 240, an in-

crease of seventy-four since the opening of school a year ago.

The work of the high school is accepted as that of the highest grade at the universities and along the lines of general culture subjects, science, art and business training it is unsurpassed by other schools larger or smaller.

The school library contains two thousand volumes, mainly reference and classic in nature, but including a few of the highest types of modern fiction and also about twenty magazines.

The laboratories are fitted with all necessary apparatus for complete work in a four years' course of science, beginning with a practical course in general science which forms an excellent introduction to the remaining three years of scientific subjects, botany, chemistry and physics.

In the school there is a room for the protection of men; they work for longer hours and lower wages; they bear the greater burdens of our industrial system; yet they have not the protection which men have of the ballot. Laws are made by the men and to protect men, not women. Good laws are even more necessary to the woman, for she is the mother of the next generation and upon the conditions under which she works depends largely the health of herself and of her children. It is of the utmost importance that there should be good factory laws, that a woman should work under sanitary conditions, with protection for life and limb, that she should not work long hours, nor late at night, etc. Yet she has no representatives to make or enforce the laws so necessary for her and the community. There are two ways to secure laws—by vote and by influence. Wage earners cannot afford influence." They must elect men who will pass and enforce the laws they need.

AT CARTER'S CAMP.

The editor of the NEWS recently spent the better portion of two days with the Los Angeles County Press Association at Carter's Camp, Sierra Madre, and the camp with its varied attractions was a revelation to him. It is only ten minutes' walk from the electric car line and that ten minutes takes you right into the mountains apparently far remote from the "madding crowd." The little Santa Anita creek goes tumbling down the canyon, carrying just now a large volume of water, the trees afford ample shade, the mountains tower above and tempt you on trips of exploration into their heights by more than one trail, leading to the top of Mt. Wilson on one side and to Hoegge's camp on the other, either one a pleasant day's tramp; and for those who tramp not the patient burro offers his sturdy back. And yet in this apparent isolation one finds all the comforts of home. There are over sixty furnished tents with beds and all the necessary appliances for cooking and even that blessing to the lazy-housewife, a full fledged cafeteria presided over by a lady who carries cleanly carefulness from a well-kept home into the outdoor kitchen and dining room, both carefully screened from flies and vagrant mosquitoes. There is also a commodious pavilion furnished with a piano where the young folks have been known to dance upon occasion, and doubtless will again. On cold nights it can be closed up and the great fireplace in the end of it filled with blazing logs makes bright the atmosphere and the faces of the guests. When the editors who were there with their families you may be sure there was "a sound of revelry," subdued but sure. Morridge of the Sierra Madre News was in a sense the host and the presiding spirit of the occasion and he acquitted himself with immense credit, leading even in the fascinating game of "putting the ring," an intricate and intellectual pastime—come to think of it though Randall of Highland Park and Shuber of Watts made the best scores.

FOUDTH STREET PARENT-TEACHERS' ASSOCIATION.

The last regular meeting of the Fourth Street Parent-Teachers' Association was as interesting a session as has been held this year. The new officers were installed and a very enjoyable talk was given by Mrs. J. H. Foley of Los Angeles. Mrs. R. A. Blackburn was hostess at the refreshment table. The school is the proud possessor of picture of Rosa Bonheur's "Deer in the Forest." The picture was a gift to the school by the principal, Mrs. M. O. Ryan, and the Parent-Teachers' Association provided the frame.

CHAMBER OF COMMERCE MEETING

The regular meeting of the Glendale Chamber of commerce will be held in I. O. O. F. hall on Fourth street next Saturday evening. The officers of the society hope that there will be a full attendance at this session as there are a number of items of business that are of vital interest to Glendale and surrounding territory. The meeting will open promptly at 7:45.

INVESTMENT

\$800 for lot 75x255 located on Adams street and facing Grange Grove avenue
ERNEST H. OWEN COMPANY

The last regular meeting of the Sixth Street Parent-Teacher Association will be held Friday afternoon at the Sixth street school.

W. C. T. U. MEETING

The regular meeting Friday of next week, at 2:30 p. m. will be at the home of Mrs. Samuel Dick, 127 Brand boulevard. It will be "Mothers' Day," and will be a co-operative meeting with the Parent-Teacher associations, the subject being "What are a parent's responsibilities in regard to children's amusements?"

WOMAN'S SUFFRAGE AND THE BUSINESS GIRL.

"She wants a voice in government. Twill help her weary father, He'll say, perhaps, she's heaven sent To 'mancipate her mother. When she is free, the nation's free O, father, brother, lover; Give her the vote and we shall see Just laws which need no cover."

Dr. Phillips Zenner of Cincinnati, a well-known writer, says, "I have long believed that woman suffrage was coming, and that it would be for the best, but we should not expect any great immediate results from it. The best effects will be seen when the mass of women take interest in civic matters and become thoroughly informed thereto. In moral questions, where the issue can be clearly interpreted, there is scarcely any doubt that their influence will be favorable. What woman's suffrage will do for lessening the social evil and its effects, is yet to be determined. More than seven million women in the United States daily leave their homes to go out into the world and fight beside men for their living. They work under greater disadvantages and temptations than men; they work for longer hours and lower wages; they bear the greater burdens of our industrial system; yet they have not the protection which men have of the ballot. Laws are made by the men and to protect men, not women. Good laws are even more necessary to the woman, for she is the mother of the next generation and upon the conditions under which she works depends largely the health of herself and of her children. It is of the utmost importance that there should be good factory laws, that a woman should work under sanitary conditions, with protection for life and limb, that she should not work long hours, nor late at night, etc. Yet she has no representatives to make or enforce the laws so necessary for her and the community. There are two ways to secure laws—by vote and by influence. Wage earners cannot afford influence." They must elect men who will pass and enforce the laws they need.

Mr. Bennett scored such tremendous success in this part on both of his previous engagements in Los Angeles that it was decided to revive it for the first week of his present visit. This will be the only opportunity to see him in Pierre, as it will be followed by "Jimmy Junior," by James Montgomery.

EXHIBIT OF GRAMMAR SCHOOL WORK

The Glendale city grammar school will close on June 15th.

The Fourth street school will have an exhibit of all lines of school work at the building Tuesday, June 12.

The exhibit will be open to visitors all day. A musical program will be given by the pupils at 2 o'clock.

The Sixth street school will hold their exhibit on Wednesday, June 14, with musical program by the pupils at 2 o'clock. The patrons and friends of our city schools are most earnestly and cordially invited to attend these exhibits and programs and see what the boys and girls of our schools are doing along various educational lines.

The residents of Burbank are looking forward to the time when the electric road is finished. (At present the grading is finished as far as the cemetery.) There are promises of a barbecue and a general big blow-out. The town is going to incorporate also, the trustees being already nominated, so as to hurry matters along in record-breaking style. The big doings is expected to happen about July 4th.

There was something doing in the office of the city building inspector during the month of May. Twenty-eight permits were issued amounting to the sum of \$38,000. This is the second largest month in the history of the city and is considerable over the next highest month this year, which was April, permits being issued during that month amounting to \$27,960. During May the permits showed that the town is rapidly growing. All of the permits issued were for homes and improvements. The most expensive building erected was \$2500. There was nothing in the line of business structures. There were twelve permits between \$2000 or better, and seven permits between \$1000 and \$2000. The remaining permits were for smaller residences, barns and other improvements.

Miss Helen Hart of Visalia and Miss Ethel Conlee of Los Angeles were house guests at the home of Miss Alpha Clement of North Glendale.

LOS ANGELES THEATRES

BURBANK.

Richard Bennett, one of the most popular actors ever seen on the local stage, will make the first appearance of his regular summer engagement at Moroso's Burbank theater in "Pierre of the Plains" for the week beginning with the regular Sunday matinee. Mr. Bennett is under a long term contract with Liebler & Co. to appear in their big eastern productions, so it is probable that the Burbank production will be his only Los Angeles visit for a long time. His most recent success was in the principal role in "The Deep, Purple," the ultra-successful play by Paul Armstrong and Wilson Mizner.

"Pierre of the Plains" is a stirring drama of the Canadian West with which Mr. Bennett's name is inseparably connected in the minds of the playgoers of Los Angeles. It is a dramatization by Edgar Selwyn (author of the recent Burbank success, "The Arab") of the stories by Sir Gilbert Parker, "Pierre and His People," or, rather, it is a play woven around the one central, distinctive character, Pierre. This lovable scamp is a gambler, adventurer, and rover in general by profession. He makes his living by his wits, but it is his boast that he always plays fair. He helps the brother of the girl he loves to escape from the Mounted Police, winning a desperate duel of wits and strength with a "trailer" who has sworn to "get him." There is a pretty love story running through the adventurous scenes, in which the chivalrous Pierre displays all the grace of his French ancestry in surroundings where it is least to be expected. This is the final touch that makes the character one of the most romantic ever written into a book or a play.

Mr. Bennett scored such tremendous success in this part on both of his previous engagements in Los Angeles that it was decided to revive it for the first week of his present visit. This will be the only opportunity to see him in Pierre, as it will be followed by "Jimmy Junior," by James Montgomery.

EXHIBIT OF GRAMMAR SCHOOL WORK

The Glendale city grammar school will close on June 15th.

The Fourth street school will have an exhibit of all lines of school work at the building Tuesday, June 12.

The exhibit will be open to visitors all day. A musical program will be given by the pupils at 2 o'clock.

The Sixth street school will hold their exhibit on Wednesday, June 14, with musical program by the pupils at 2 o'clock. The patrons and friends of our city schools are most earnestly and cordially invited to attend these exhibits and programs and see what the boys and girls of our schools are doing along various educational lines.

The residents of Burbank are looking forward to the time when the electric road is finished. (At present the grading is finished as far as the cemetery.) There are promises of a barbecue and a general big blow-out. The town is going to incorporate also, the trustees being already nominated, so as to hurry matters along in record-breaking style. The big doings is expected to happen about July 4th.

GRASS VALLEY HOME-COMING

What is termed as a "Home-Coming" of all former residents of Grass Valley, will be held from June 25th to July 5th, inclusive, and an unusually good time is looked forward to. This is the first time that anything of the kind has occurred and will be under the auspices of Golden State Lodge, I. O. O. F. of Grass Valley. A cordial invitation is extended to each and every former Valley resident of Glendale and vicinity to be present and have a good time with the crowd, and renew old acquaintances; also form new ones.

LA CANYADA STRIKES WATER

Mr. Brigham, of La Canyada, informs us that at a new well just completed, one mile east of La Canyada postoffice, a stream of water measuring twenty-four inches is being pumped from a depth of 456 feet in a twelve-inch casing. This development in a section where the water supply has always been little more than sufficient for domestic purposes means a great deal for the La Canyada section.

GLENDALE, CAL., JUNE 9, 1911

The Monrovia News gave a generous half column notice to our May Festival.

Even the Pacific Electric management can't please everybody; at Redondo the company is being petitioned to allow Sunday dancing by one set of business men while another set of citizens are protesting against it.

Two thousand copies of the booklet prepared and published by the NEWS for the Glendale Valley Improvement Association, have been placed in the chamber of commerce, Los Angeles. The folder contains a concise account of Glendale and is a valuable booklet to send to interested inquirers.

The Monrovia Messenger has taken up with Mr. Ellis and his "publicity" campaign. The writer of "beauty and power" will doubtless make good in Monrovia as he did in Glendale and find just as numerous there as here the "public spirited business man," who "married his sweetheart of his youth," has been foremost in all good works and whose countenance looks just as well in print.

We have been favored with a copy of THE CACTUS, a Los Angeles weekly publication edited by Mr. Robert H. Wilson, our neighbor at Casa Verdugo. It certainly bristles with points, and if it continues on the line marked out, will make something of a stir among the dry bones. It exhibits the skeleton of the big department stores in last week's issue. Mr. Wilson is an able writer, and we wish him success.

There seems to be a strong network of circumstantial evidence woven around the McNamaras, but the "confession" of Delaney goes a little too far for credibility. It is very improbable that a dealer in wholesale destruction and murder such as McNamara is represented as being, would con side so recklessly in such a man as the Delaney person seems to be. These confessions will be treated by a jury with whatever consideration they are worth; no one will be convicted by them without proper confirmatory evidence.

WURZBURGER-PRIDHAM CASE.

It is reported that since the trial of the case in which Mrs. Wurzburger was awarded damages against Supervisor Pridham for injuries received by falling into the wash at Arden avenue a year ago, it has been discovered that the point at which the accident occurred is on the railway company's right of way, and that the county therefore incurs no responsibility. This is a very fine distinction. We do not wish to see Mr. Pridham mulcted, but Mrs. Wurzburger is evidently entitled to damages from somebody. The place was a dangerous trap for pedestrians, and even if on the railroad company's right of way, it would seem as if the county should be held responsible for allowing such a place to exist on its alleged "highway."

The Out-Door Art League of San Francisco is endeavoring to reform some things in the bay city which previous reformers have overlooked. They want something done to the person guilty of alluding to that highly moral town as "Frisco," whether he shall be bastinadoed or merely hanged, has not yet been determined and probably will not be until another "reform" legislature has done its work. But their principal efforts at present seem bent upon the suppression of "audible vendors," which is an euphemism for the peddlers of fish, oysters, old rags, etc. It will certainly be the crowning triumph of Mayor McCarthy's virtuous reign if he can now that he is spurred on by the Art League, suppress the "Fresh Foulish" vend and put out of business the nefarious "Ra-ags and bottles" merchant. At the same time it appears as if the Art League had undertaken a rather large contract.

THE EIGHT-HOUR LAW.

The South Pasadena Record wants to know why Senator Thompson, being a "Progressive" did not support the eight-hour law for women. We can answer that easily for Senator Thompson. He does not take a program simply because it is handed to him. He did not believe that the eight-hour law for women would be of benefit to women, and events are daily justifying his judgment and his vote.

The case brought by Miss Hunt, head waitress of the Mission Inn, at Riverside against the proprietor, Frank Miller, illustrates the inconsistencies of the law. This lady receives a salary of \$75.00 a month, has room, bath and piano and receives tips which almost double the salary; yet if the law stands she loses her position because her duties cannot be performed in an eight-hour day. But the women who work in the packing houses and orchards, where the labor is much harder, are permitted to labor longer hours. In hotels on the American plan which have to keep open seven days in the week, under the law the women employees can only work in one day six hours and fifty-two minutes. Women employed in banks are not affected by the law, nor stenographers in lawyers' offices. And yet this is the law which Governor Johnson pronounces good. It remains to be seen what the supreme court thinks of it.

THE CHURCHES, THE MERCHANTS AND THE HOME PAPER.

The local papers are always ready to give to the churches a great deal of free advertising and naturally expect that these institutions will be fair enough to reciprocate when possible to do so. But the NEWS can testify that the idea of having their printing done at home seems to be one of the last that enters the minds of our church friends (with two exceptions) in Glendale. A recent year book comes to hand issued by one of our churches, bearing the imprint of the Model Printing Co., Ocean Park. Only a short time ago a Los Angeles printing concern got out a similar directory for one of the other churches here. From two of our most prominent churches the NEWS office has received no order for printing for years and we do not believe our contemporary has fared much better. To give printing patronage to a "brother" in the church seems a cardinal doctrine, regardless of the work being done at home or elsewhere.

That our merchants will submit to being held up by the kind of advertising that these "directories" afford, is a thing to marvel at, as a number of them quite readily and consistently refuse to advertise in the home paper either in regular or special editions. The Year Book first alluded to contains twenty-seven advertisements of Glendale concerns and individuals, any one of whom would grow indignant at the idea of Glendale people going to Ocean Park to buy goods, and yet they do not seem to care enough about the home print shop to inquire whether the thing is to be published at home or abroad.

PRESIDENT TAFT'S LATEST SPEECH.

President Taft made a great speech in Chicago last Saturday evening on the Canadian reciprocity treaty. It is a speech which ought to convince the people of the country that the present chief executive of the nation comes more nearly to measuring up to the standard of statesmanship than any president that has recently occupied the white house. He makes very clear the fact that the principal opposition to the proposed treaty comes from the lumber trust and the paper trust and that these two "interests" are using the farmer for their own purpose. The president calls attention to the fact that for ten years he struggled to secure free trade with the Philippines and was opposed by all sorts of prophecies of dire results, and yet since the import charges have been taken off Philippine products, there are no complaints from any one. The same thing occurred in regard to the reduction of Cuban import duties and free trade with Porto Rico; always these charges are bitterly opposed by interested parties, but always the result has been satisfactory. He dwells especially upon the need for a conservation of our lumber, particularly of the variety of trees that are used for wood pulp, the supply of which is decreasing very rapidly in the United States, but is practically unlimited in Canada. The president shows that the only competition existing between the two countries is in regard to wheat, barley, rye and oats, products which have their price made in the world market and which is unaffected by local conditions.

Atogether the speech should go far towards removing opposition to the treaty and should also have a tendency to arouse the people of the United States to a realization of the fact that President Taft is a broad-minded statesman, who adorns his high position.

THE SCHOOL QUESTION.

The general feeling² in regard to schools at the present time is that they come high, but we must have them. The trustees of the Glendale grammar school district have been instructed to call an election to vote on the question of issuing bonds to the extent of forty thousand dollars to secure ground and erect two more school buildings. Another meeting is to be held later to give more definite instructions, but the intention is expressed at Saturday evening's meeting

is to establish an intermediate school at a central point and a grammar school near the northern boundary of the city near Louise street. It is presumed that the overcrowded Sixth street school will be sufficiently relieved by the establishment of the intermediate school to render it unnecessary to make any additions to that establishment. The building of a school house near the northern boundary is essential owing to the large number of pupils who attend from the Casa Verdugo section. The sum of money to be asked for is a large one, but it is impossible to overestimate the demand that the ever-increasing population makes upon school facilities.

THE SPEED CRAZE.

An account of the recent racing at Indianapolis where Ray Harroun made a world's speed record, when one man was killed and a half dozen seriously injured, reads strikingly like the account of a gladiatorial contest in ancient Rome and compels the reflection that the people of two thousand years ago were human beings animated by precisely the same impulses that move humanity now. Then they went to the amphitheater with the open and expressed purpose of being thrilled by the killing of one man by another, or seeing him fight for his life with a wild beast.

Now that the race has become civilized, it is not "good form" for us even to attend a prize fight (where usually no one is seriously injured) and our law has placed this "amusement" under the ban. But the desire for excitement to be furnished at the expense of some one else still survives under a thin veneering of self-complacent respectability, and we avail ourselves of every opportunity offered to witness the spectacle of a lot of speed maniacs challenging death with almost a certainty that the grim reaper will claim his toll. At Indianapolis seventy-five thousand people shouted their encouragement to forty racers and when one of the poor victims had his life snuffed out, there was no suggestion that the grim tragedy put an end to the "sport" the presence of death was merely an interesting incident that added zest to the entertainment. It would seem as if the law which is so busy in reaching out and regulating the private as well as the public habits of the race, might well step in and do something to control these exhibitions which can only have a demoralizing effect upon actors and spectators.

The plea that these exhibitions are in the interest of legitimate sport is not well made. At Indianapolis there were forty or more entries; the track was so crowded that accidents were inevitable. It is an interesting query, whether had the entries been limited to twenty with a corresponding guarantee of safety, would the interest in the race have been greatly diminished?

CORRESPONDENCE

The Storm Water District

THE VERDUGO WASH.

Editor Glendale NEWS:

You are in error when you say the petition to create the Verdugo wash storm water district was only signed by a few Casa Verdugo residents along the wash. Of the fourteen signers only six were adjacent to the wash. The first signer, and one of the main movers in the petition, was Mr. Hugh Glassell, who owns about a half million dollars' worth of land in the southeast corner of the proposed district. He also owns heavily in West Glendale, and has other great interests in Verdugo Canyon. Glendale's leading citizens also realized that it was a common cause of all the eastern end of San Fernando Valley. The petition is signed by Dr. L. H. Hurt, F. H. Vesper, Frank Campbell, J. R. Shropshire, J. F. McIntyre and Glendale Sanitarium. Joseph McMillan, manager of the Pacific Electric Lines, also signed it. In fact, every thoughtful man in this community realizes that it is a menace that hovers over this entire region. By including all this region in the district, the cost will be only a trifle per lot, yet it will change an eyesore into a thing of beauty and of infinite value. In connection with the organization of the storm drain district a Foothills Boulevard Club is being organized, to utilize for the public the "investment" value of the wash when once it is put under legal control. The proposed storm drain district will, in my judgment, be the greatest possible boon to the entire community—to all of "Glendale Valley," so called.

SIDNEY DELL.
Glendale, Cal., June 6, 1911.

At the meeting of the Maids and Matrons on Monday, the 19th, the program will be under the direction of Mrs. Metheny. The principal feature of the afternoon will be an address by Rev. Hodgens, of Los Angeles.

PERSONAL ITEMS

Mrs. A. M. Beaman of Maryland avenue was a guest Friday at the luncheon given by Mrs. J. Kennedy of Manhattan Place, Los Angeles. The luncheon was followed by a thoroughly enjoyable box party at the Orpheum

Dr. E. H. Thompson of Burbank, who has for the past six months been making himself familiar with the most modern methods and discoveries in medicine and surgery in Germany, is expected home about the 12th of this month.

Mr. and Mrs. John Pirtle of Fernhill, La Canada boulevard, entertained at dinner Thursday evening in honor of Mr. and Mrs. Elmo Pirtle of Douglas, Ariz. Covers were laid for fourteen and the table was daintily decorated with pansies.

Miss Michelle LeGrande of Third street entertained a number of friends Wednesday evening at a tamale supper. The table was prettily appointed and covers were laid for ten. Miss Alpha Clement served as assistant chef of the occasion.

Mr. and Mrs. Dering Arfwedson accompanied by Mrs. Arfwedson's mother, Mrs. Wood, have after a stay of nearly nine months in Los Angeles returned to their residence, 1534 West Fifth street, Glendale, well pleased to return to their pretty city.

Mrs. Eleanor and Miss May Richards recently entertained a large number of their friends at their home on Riverdale Drive. There were about sixty-two guests present from Glen dale, Los Angeles and other points. The afternoon was spent at five hundred.

Mrs. L. M. Pollard and daughter, Miss S. E. Pollard, recently of Providence, R. I., have arrived in Glendale, and will visit for some time with Mr. and Mrs. F. E. Cole, of East Second street. They are so pleased with our city that they are about to locate here.

Mrs. A. C. Anderssen of Cedar street entertained the members of her family and relatives at dinner Sunday evening. Covers were laid for nine guests at a table where the decorative scheme was daintily carried out in pale pink carnations and honeysuckle.

It is expected that the tent for the accommodation of the children of the Baptist Sunday school will be erected this week. This will be only a temporary affair, however, and a \$7000 school building will be erected as soon as possible in connection with the new church.

Mr. L. Denny and wife, who have been residing on Verdugo road near Fourth street for the past several months, left Monday last for their old home in Missouri, to be gone six weeks or so. They find California sufficiently attractive to propose residing here permanently.

Mr. L. Denny and wife, who have been residing on Verdugo road near Fourth street for the past several months, left Monday last for their old home in Missouri, to be gone six weeks or so. They find California sufficiently attractive to propose residing here permanently.

Chapter L of P. E. O. has issued invitations to its B. I. L.'s for a picnic supper to be given Monday evening at six o'clock at Miss Ruth Byram's Glendale avenue. Mrs. John Hunchberger will preside as toasting master and Dr. A. L. Bryant and other celebrities will be called upon for re sponses.

Kenneth Wilbur, who for the past months has been taking a course in surveying at the University of Southern California, has accepted a position with the Consolidated Water Company. He will have charge of one of the pumping plants owned by the company in Verdugo Canyon.

The young people of the Methodist Sunday school of this place enjoyed a picnic at Bee Rock, Griffith Park, Los Angeles, Saturday. The trip to the park was made in Mr. Wood's large auto truck and trailer. The young people were so numerous that Mr. Wood was compelled to make two trips across the river.

The music pupils of Mrs. M. T. Wood-Arfwedson will give a recital next Saturday in Los Angeles at the Fraternal Brotherhood hall. A number of her Glendale pupils will take part in the exercises, among them being Roberta and Theodore Hopping, Walter and Leona Hibbert, and wee Harriette Cook.

Mrs. Mabel Tight of Glendale avenue, who has been absent from Glendale for the past six weeks returned home Wednesday evening. Mrs. Tight's absence was for purely business purposes and necessitated visits to Chicago, Kansas City, Albuquerque and Santa Fe. Her return was a pleasure to her many friends.

The partnership of H. W. Walker and Farris C. Brown in the real estate business has been dissolved by mutual consent. Mr. Walker still retains the real estate office on Fourth street near Brand boulevard. Mr. Brown will work for several weeks in the West Glendale grocery in the absence of one of the owners of that establishment.

Miss Violet Turner entertained last Monday evening, May 29, in honor of her friend, Miss Marguerite Robertson of Los Angeles. The guests included Misses Mary Crookshank, Marjorie Bellham of Los Angeles and Misses May and Laura Brown of Glendale.

Mr. B. R. Jones, horticultural in spector for this section, was in Glendale Monday looking after a few trees

GLENDALE, CAL., JUNE 9, 1911

Grinned Into Matrimony.
That grinning matches were an accepted form of sport in early English days is shown by an advertisement announcing a gold ring to be grinned for by men on Oct. 9 at the Swan, Coleshill heath, Warwickshire, which appeared in the Post-Boy of Sept. 17, 1711. Addison gives a detailed account of one of these "controversies of faces," telling us that the audience unanimously bestowed the ring on a cobbler who "produced several new grins of his own invention, having been used to cut faces for many years together over his last."

His performance was something like this: "At the very first grin he cast every human feature out of his countenance; at the second he simulated the face of a spout, at the third that of a baboon, at the fourth the head of a bass viol and at the fifth a pair of nut crackers." Addison adds that a comely wench whom he had wooed in vain for more than five years was so charmed with his grins that she married him the following week, the cobbler using the prize as his wedding ring.

Powerful Bulls.
During a debate upon the second reading of the Irish land bill in 1896 Lord Londonderry concluded a period with: "This is the keystone of the bill! Are you going to kill it?"

Sir Frederick Milner, speaking on the budget, said, "A cow may be drained dry, and if chancellors of the exchequer persist in meeting every deficiency that occurs by taxing the brewing and distilling industry they will inevitably kill the cow that lays the golden milk!"

Lord Curzon—"The interests of the employers and employed are the same nine times out of ten—I will even say ninety-nine times out of ten!"

Discussing Mr. Asquith's licensing bill at a meeting at Shoreditch, a member of parliament roused the audience to a frenzy of enthusiasm by declaring that "the time has come to strip to the waist and tuck up our shirt sleeves!"

What is Electricity?
Many persons young and old often wonder how the modern electric cars, trains and locomotives are operated and what electricity is. No one knows what electricity is. We know some of the things that it will do. We have to a certain extent learned how to control it and for want of a better name call it a fluid. We have discovered, too, that it is one of the most important forces, if not the most important force, of which we have any knowledge. We are almost as ignorant of many other great forces of nature—as, for example, the attraction of gravitation. For the present we must be content to observe such forces in action and to devise the best methods to control them. In this knowledge mankind has progressed wonderfully within a few years.—St. Nicholas.

Fishing Without Bait.
On the Nahoo creek, at Hukow, we saw a novel way of fishing. Two small boats were moving parallel with each other about thirty feet apart. The ends of a line about sixty feet long to which small unbaited hooks were attached about four inches apart to two sticks were held respectively by a man in each boat. As the boats moved slowly along first one man and then the other would give his stick a jerk. Immediately that the hooks struck anything the line was gradually hauled in and invariably with success. We saw fish struck four out of five times, many of them running apparently from half a pound to two or more pounds. It may be that China is the only place in the world where fish are caught with unbaited hooks.—North China News.

Custom House Humor.
Two Germans who were crossing the Luxembourg frontier declared to the customs officials: "We have with us three bottles of red wine each. How much is there to pay?"

"Where is it?" was asked.
"Well, inside us."

The official gravely looked at his tariff book and read: "Wine in casks, 20 shillings; in bottles, 48 shillings; in donkeys' hides, free. Gentlemen," he added, looking up, "you can go."—Der Guttemplar.

Not on His Tombstone.
"What did he die of?"
A slight difference of opinion, as near as I can find out."
"Oh, a fight?"

"Not at all."

"What, then?"

"Doctors disagreed, and he died before they settled it."—London Tit-Bits.

A Memorable Occasion.
There should be order in all things. For instance, on one occasion we discovered that the proper method is to hook her party gowns first and fix the furnace afterward. Reversing the order cost us \$22.50 for a new gown and spoiled her whole evening besides.—Detroit Free Press.

The Poor Doctors.
"When a man dies, is an inquest always held?"
"Oh, no! If a doctor has been in attendance the coroner is not supposed to have inquired into the cause of the death."—Toledo Blade.

Not Nowadays.
"Pelorus was a very wise man. Just consider his advice to his son."
"Reads well. But would a really wise man attempt to tell his son anything?"—Washington Herald.

Japan's Snapping Turtle Farm.
One of the oddest farms in the world turns out each year tens of thousands of snapping turtles and has solved the problem of preserving the supply of what is to the Japanese as great a delicacy as diamond back terrapin is to some Americans. This queer farm consists of a number of ponds. Certain of them are set apart as breeding ponds. Once a day a man goes over the shores and with little wire baskets covers up all new egg deposits. Sometimes thousands of these wire baskets are in sight at a time marking the places where the eggs lie and preventing turtles from scratching the earth from them. Hatching requires from forty to sixty days, according to the weather. The young as soon as they appear are put in separate small ponds and are fed with finely chopped fish. They eat this during September and October and late in October burrow in the mud for the winter, coming out in April or May. Most of them are sold in the market when they are from three to five years old, at which time they are most delicate.—Harper's.

A Resourceful Badger.
An English artist while painting a scene discovered a badger's lair and thought to play the animal a practical joke. Gathering together a bundle of grass and weeds, he placed it inside the mouth of the hole and, igniting it with a match, waited for the ignominious flight of the astonished householder. But Master Badger was a resourceful animal and not disposed to be made a butt of practical jokers. He came up from the depths of his hole as soon as the penetrating smoke told him that there was a fire on the premises and deliberately scratched earth on the burning grass with his strong claws until all danger was past. No human being could have grasped the situation more quickly or displayed greater skill in dealing with an unfamiliar event.

Building a Reputation.
Young physicians in the smaller towns have an idea that appearing very busy will help them greatly in starting a practice. The following is told by a now prominent Kentucky physician. He had a call the afternoon following the hanging out of his shingle and started through town in his buggy at terrific speed. A policeman stopped the enterprising physician.

"Doctor," he said, "it is against the city ordinance to drive at the speed you are going. You must accompany me to the judge and pay your fine."

"What is the fine?" inquired the doctor.

"Five dollars."

The doctor's hand flew to his pocket. "Here's \$10. I have to come back just as fast as I am going."—Success Magazine.

Ambition.
The scroll of fame has variant attractions for different minds.

"Here lies one whose name was writ in water"—the despairing and dying John Keats desired that admission of defeat engraved for his epitaph.

"Write me as one who loved his fellow men," was Leigh Hunt's aspiration.

Generous Tramp.
"Please gimme a quarter," begged a panhandler on Washington street. "I won't hand yer no tale about bein' hungry, pard—honest, I wanter git a drink."

"But," we objected, "for it was indeed us," "you don't need a quarter to buy a drink."

"Sir," answered the panhandler, "do you tink I'm fallen so low as ter take a gent's money an' den not invite ter drink wid me?"—Boston Traveler.

Salt Eaters.
Idiosyncrasy often takes the form of a special craving for instead of an objection to certain foods. Many people possess an extraordinary relish for common salt and will eat it by the teaspoonful when opportunity admits. This sometimes leads to obesity and dropsey, but it has also the peculiar effect of increasing the weight.

Highly Improper.
"What is the proper thing for a man to do when his wife asks him for money and he hasn't any?" queried Young Newell.

"Oh, there isn't any proper thing to do under those circumstances," replied Oldived. "Anything he does will be wrong."—Chicago News.

When a Man Makes His Will.
It is a morbid superstition that a man dies when he makes his will. More often he lives happily and long after he has done so. It relieves his anxieties.—London Saturday Review.

Past That Now.
Bystander—My boy, some day you'll bring sorrow to your father's gray hairs. The Bad Boy—No danger, sir. Worrying about me has made him bald.—Philadelphia Times.

A Few Words.
Did you have many words with your wife last night?"
"No; only a few words, but they were repeated—very often."

GLENDALE'S VALUABLE FOOTHILL BACK COUNTRY

An event of large importance to Glendale has been the opening of the Glorieta Heights lands in the Monte Vista valley by the Western Empire Magazine. This work has been done without advertising or noise of any kind and very few of the people hereabouts have heard of the work. The Editor of the Western Empire Magazine has been forming clubs of homeseekers for many years, and this work in the foothills back of Glendale is the ninth project successfully handled by his organization.

Over 200 families have joined the Glorieta-Monte Vista project, and taken up jointly about 2000 acres of land which they will improve as Suburban homes. About one-half of the members or possibly nearly two-thirds are Californians, while the rest are from various parts of the east. The Western Empire is not so generally known in California, where it is published, as it is throughout the Eastern States. Six or seven large new towns and farming communities have been established by this magazine.

In opening the country back of Glendale the managers of the project have purchased from Mr. E. D. Goode, the Glendale and Verdugo system, and they modestly state that they think Glendale has a future not surpassed by any community suburban to Los Angeles, and that their work will help to make the statement a truism. Mr. M. V. Hartranft, editor

of the magazine, says that there are very few suburban cities which have such a romantic and valuable back country as Glendale has. He is deeply impressed with Scholl Canyon, Sycamore Canyon and the Verdugo, Canyada and Crescenta country, as well as the Monte Vista and Sunland country. As Mr. Hartranft has lived in these foothills back of Glendale for many years he evidently means exactly what he says.

We are glad to note that an automobile stage line has been established from Verdugo Park back through Crescenta and Glorieta Heights to Sunland. Mr. Hartranft says that they soon expect to put on an auto stage to Canyada to bring all of that traffic down to Glendale, where it properly belongs. This magazine with its wide circulation will undoubtedly be a great force in bringing along the tide of development that has set in about Glendale.

These Glorieta Heights-Monte Vista lands have been bought in a club or syndicate form by these families. They will all get possession of their lands on June 7th.

Mr. Hartranft has furnished us a list of the names of the two hundred purchasers spoken of above, with their acreage and postoffice address. In glancing over the list we note that it represents twenty-seven states and three foreign countries; in addition to the people at present on the coast.

CHAPTER IX.

KELVIN laid down his pencil and leaned back in his chair. His face was a trifle pale. He was about to reveal himself, perhaps more daringly than Breed would like. "I did not exceed my instructions," he explained, "for, in pursuance of my plan you merely told me to secure of the six leading stocks all that I could. I did so, but found that I had much more than necessary of some stocks and not enough of others, so I traded. As it stands now, I have

"THE PEOPLE ARE FOOLS!" DECLARED BREED.

sufficient to entitle you to a personal representation in every railroad, major or minor, in the United States."

Breed studied young Kelvin for a long time in thoughtful silence.

"How strong a rival do you consider Rollins to be?" he asked.

"Formidable," replied Kelvin. "All the more so because he has a personal dislike for you."

"How does he know I had him let out?" asked Breed.

"Kelvin smiled. "He charges openly that he was decapitated because he stood in the way of the scheme by which the Parsons group was deliberately wrecked and laid open to capture by the MacIntyre interests. Don't underestimate this man, Mr. Breed. I don't know where he got the money, but—"

"The independent steel corporations," interrupted Breed.

Kelvin stopped a moment and considered this new thought. "That's so!" he exclaimed and made a pencil note on the margin of his diagram. "Then he is doubly formidable. He is going to make a strong campaign for proxies, and he is to be feared because, while not so well known to the public as yourself, he is more favorably known, and when they come to investigate him they will find him to be a man of stern probity."

"The people are fools!" declared Breed in some heat. "I know what they think of me, but they have no right to do so. I have given away colossal fortunes in the endowment of universities, churches and public institutions, and they give me no thanks for it—none whatever! It is time that the public was chastised, and mine is the appointed hand!"

"A wireless for you," broke in a new voice.

Kelvin, turning, saw Blagg standing in the doorway. How long he had been there none of them could have told. For the first time Kelvin noticed that Blagg's thinness was the thinness of a man whose flesh had been reduced to nothing but sinewy muscle.

Breed took the wireless and read it; then he looked up at Kelvin, with a curious smile. "So you think I'd better send for Rollins and make peace with him?" he said. "You suggested that yesterday, I think."

Kelvin colored slightly. "It seems inevitable to me," he replied.

"Well, I have already sent for him," announced Breed dryly. "Here is his answer. He will arrive here at 3 o'clock." And with an air of triumph Breed arose and, accompanied by the doctor, went out.

"The population of the United States is now almost 90,000,000," said Blagg. "Henry Breed holds, according to my guess, nearly \$20 in money for every man, woman and child in the United States. Ten million of these people are on the verge of starvation, and their \$20 today would stand between them and hell. Seventy million more are merely living like dogs."

"If they had their \$20 apiece they would spend it," explained Kelvin slyly, "and some Breed or other would have it again in no time."

"But if there were no Breeds to establish enormous money draining systems by means of the excessive rate that must be paid for necessities the circulation would stay among the people."

"If there were no Breeds," retorted

Phillip, "you would not have a job. Here is a wireless I wish you would get off to New York."

Blagg left the room whistling the "Marseillaise."

Early luncheon at Forest Lakes was usually a deadly dull function, and to day it seemed more so than ever. A preoccupation seemed to settle upon them all. At Breed's table they had nearly finished when Breed, looking up from the bowl of mush and milk to which Zeppelin restricted him at noon, suddenly addressed Phillip. "Kelvin," said he, "if you had your own way about things what would you do?"

"I would make myself emperor of the world."

"Good!" cried Lillian. "And I would be empress."

"Lillian!" primly protested Mrs. Rensselaer. "You don't mean anything, I know, but you should be no more bold here, even in jest, than abroad."

"How do you know I don't mean it?" returned Lillian, with an earnestness which could not be altogether concealed by her rillery. "If Mr. Kelvin could make himself emperor of the world I would exhaust every wile known to femininity, every stratagem known to diplomacy, every force known to warfare, to become his consort. To be empress of the world, to have life and death dominion over every living creature, to hold in my hand more power than has ever been possessed, by any human being—for these things I would jeopardize my happiness, my life, my very soul!"

Phillip glanced across at her with more interest than he had yet shown and, found with a thrill which he could not deny, her eyes shining into his.

An hour or so later Phillip had occasion to go into Blagg's room, and there he found Lillian.

"You speak of dominion," Lillian said animatedly, conscious of her power over the gaunt operator and perhaps using it to pique Phillip. "Here it is," and she indicated the new wireless apparatus which, introduced but recently, was rapidly becoming universal. It was supplied with keys like a typewriter and differed from that machine in only one essential respect—the paper in it was upon a roll, like a ticker tape, and from either side of the contrivance a glass tube filled with a phosphorescent greenish light ran straight up to the ceiling.

"With all instruments thrown into key, Mr. Blagg can reach any one or all of the wireless stations on the face of the globe," she continued. "At his finger tips is all the world."

As she spoke the greenish phosphorescence in the tubes began to glow and crackle in regular waves, the mechanism of the typewriting device began to click, and upon the tape there appeared a succession of "M's." Blagg self consciously drew out his watch and held it while he watched the tape.

"Noon at Washington," he said. "I am not a second out of the way." Mechanically he reached out to the keys of his machine and wrote upon it the letters of the alphabet in apparent idleness from "A" to "G" and back again, then signed "G. B."

"Does that idle tampering with the keys carry any place?" asked Kelvin.

"Yes," replied Blagg; "every operator in the world got that message."

As Kelvin left the room he caught Blagg eying him with the utmost malevolence.

Three hours later old Fargus came shuffling into Kelvin's room. "Mr. Breed wishes me to tell you that Mr. Rollins has arrived and that he would like to see you in the library."

In that dim old room Kelvin found Rollins sitting uncompromisingly upright, his lips compressed, his jaw set, his eyes stern. He was a smooth faced man of under forty, with unusually frank eyes which inspired trust at once.

"Mr. Rollins has just told me that he is not here for a compromise," Breed interposed upon their greeting. "I am sorry to hear that, Rollins," said Kelvin. "I have been going over the situation pretty thoroughly and am willing to admit that if you fight us it will annoy us somewhat, but it will be a losing venture for you."

"I don't think it," returned Rollins, his face hardening. "I am willing to pit my reputation with the public against Mr. Breed's at any time."

"Why make it a matter of reputation, Rollins?" suggested Breed. "Why not make it a matter of self interest?

"THEN I WILL TAKE CONTROL," RETURNED BREED.

I want and mean to have control of the railroads. You want the same thing. I think we both could be satisfied. I consider you the best railroad man in the United States today, and I want you to manage the consolidated lines. Pool your stock with mine, giving me control and you management. Do you accept that?"

"No," said Rollins. "Then I will take control," returned Breed. "If I do and offer you the general management will you accept that?"

"Grandeur has a heavy tax to pay," Alexander Smith.

"If you gain absolute control," said Rollins, with a short laugh, "and if, after you have done so, you offer me absolute management, with a free hand, then, I shall believe you."

As Rollins rose Breed rang a bell, and it was Elsie White who answered it.

"This is Mr. Rollins, Elsie," said Breed. "Show him the suit next to Kelvin's. You can't get back tonight with any comfort except by auto. Rollins, but we shall be very glad to have you as our guest."

Rollins had intended to refuse this offer, but he looked at Elsie White and accepted.

After Rollins had gone Breed looked at Kelvin quizzically. "I suppose you have a solution for our problem?" he suggested.

"I am waiting to hear yours," returned Phillip.

"There is only one feasible way," declared Breed promptly. "We must subsidize the press."

(To be continued)

An Early Airship.

We are told by Peter Farley, who writes as an eyewitness, that in August, 1835, the airship Eagle was officially advertised to sail from London with government dispatches and passengers for Paris and to establish direct communication between the capitals of Europe. This early type of airship was 160 feet long, fifty feet high and forty feet wide, and she lay in the dockyard of the Aeronautical Society in Victoria road, near Kensington gardens, then quite a rural spot.

Built to hold an abundant supply of gas, she was covered with oiled canvas and carried a frame seventy-five feet long and seven feet high, with a cabin secured by ropes to the balloon. An immense rudder and wings or fins on each side for purposes of propulsion completed her fittings. The deck was guarded by netting. After all this preparation and advertisement the Eagle never got beyond Victoria road, for Count Lennox and his assistants failed to provide the necessary motive power.—London Standard.

Carrying a Stretcher.

The bearers of a stretcher should be as near the same height as possible. If there is any difference the taller and stronger man should be at the head. A stretcher should be carried by the hands or suspended by straps from the shoulders. Never carry a stretcher when loaded upon the shoulders. It frightens the patient, and he might fall off very easily, especially if one of the bearers should stumble. The bearers should not keep step, but break step, the one in front starting off with his right foot and the one behind with his left. The injured should be carried when loaded upon the shoulders. It frightens the patient, and he might fall off very easily, especially if one of the bearers should stumble. The bearers should not keep step, but break step, the one in front starting off with his right foot and the one behind with his left. The injured should be carried when loaded upon the shoulders. It frightens the patient, and he might fall off very easily, especially if one of the bearers should stumble. The bearers should not keep step, but break step, the one in front starting off with his right foot and the one behind with his left. The injured should be carried when loaded upon the shoulders. It frightens the patient, and he might fall off very easily, especially if one of the bearers should stumble. The bearers should not keep step, but break step, the one in front starting off with his right foot and the one behind with his left. The injured should be carried when loaded upon the shoulders. It frightens the patient, and he might fall off very easily, especially if one of the bearers should stumble. TROPICO

It is expected that Rev. Cyrus B. Hatch, who has been passing several weeks in the East, will arrive in Tropico this week and will occupy his pulpit at the Presbyterian church as usual next Sunday.

The alumni of the Glendale Union high school held a meeting at the home of Miss Lillian Elias, at the corner of Tropico avenue and the boulevard, for the purpose of planning the initiation for the graduating class of the high school this year.

A dancing party will be given in the G. A. R. hall on Glendale avenue Saturday evening by the Four Leaf Clover club. This is the second of a series of dancing affairs being given by this society. This first event was held about a month ago.

Robert Taylor, a prominent Good Templar of this valley, attended the Good Templar convention which was held at Lordship recently. He went as a delegate from this place, notwithstanding the fact that the lodge here has been disorganized.

Rev. Martin Armstrong, conference evangelist of the Southern Kansas conference, visited the Rev. and Mrs. W. C. Botkin this week. Mr. Armstrong will start a series of special meetings in the West Glendale Methodist church soon.

The Christian Endeavor and the Baraca and Philathia classes of the Presbyterian church of this place will hold a union meeting in the church this evening. This is the regular monthly social affair held by the young people of the church. A program has been arranged and will be given, and refreshments will be served.

Rev. and Mrs. H. B. Ireland, who recently conducted a series of revival meetings at the M. E. church of this place, rested for several days this week with Rev. and Mrs. W. C. Botkin on Central avenue. They will go north very soon to start a series of meetings in a town near San Francisco.

The following new homes are now in course of construction in the Richardson tract on Euclid street. Frank B. McKenney is putting up a \$3,500 residence, which will be rushed to completion. Mr. Newell, cashier of the Los Angeles branch of the Standard Oil Company, is starting a home on the south side of the street. A residence to cost about \$2,500 is being started by Mr. Spence, president of the Los Angeles Y. M. C. A., on the north side of the street.

As evidence that the Easter Sale which was held for the benefit of the Tropico library was a success the following books have been purchased with the money and put into the library: The Squaw Man, When a Man Marries, Like Another Helen, Happy Hawkins, The Lilac Sunbonnet, Mary Jane's Pa, Mollie Make Believe, Red Men and White, Bruver Jim's Baby, The Best Man, Rose of the River, Comrades, Robinette, The Rules of the Game, Rutledge, Wyoming, The Grain of Dust, Red Pepper Burns, Master of the Vineyard, Cousin Maude, Mary Cary, For Lilas, Wee Wiffies, Mary Ward of Texas, Putmanhall Cadets, Putmanhall Rivals, Putmanhall Champions, Putmanhall Rebellion, Sara Crew, The Young Auctioneer, Betty Whales Freshman, Betty Whales Sophomore, Betty Whales Junior, Emmy Lou, Donald and Dorothy, Hilda of the Hippodrome, The Water Witch, Tom the Telephone Boy, Only a Farm Boy, Abraham Lincoln, The Boy and the Man.

PAINFUL ACCIDENT.

While attending a hayriding party which went to Verdugo Park last Saturday afternoon, Miss Emily Hatch, daughter of Rev. C. B. Hatch of this place, was painfully injured. The young people had enjoyed the day at the park and were returning. When the accident happened the young people were thoughtlessly allowing the horses to travel along without anyone to guide them. Suddenly the animals took fright and ran to the side of the road. The wheel of the wagon struck a pole at the side of the road, and Miss Hatch was caught in such a manner that the calf of her right leg was badly cut. Before she could be taken to a physician Miss Hatch suffered greatly from loss of blood. Twenty-four stitches were necessary to sew the wound. At last reports the sufferer was resting as easily as could be expected.

TROPICO METHODIST NOTES.

The Ladies' Aid Society held an all-day meeting in the church Tuesday.

Miss Flossy Doris Flanders, daughter of Mr. and Mrs. D. B. Flanders, of this place, and Warren T. King, of Los Angeles, were married in the church Wednesday evening at 8:30 o'clock. Rev. W. C. Botkin, pastor, officiating. The edifice was prettily decorated with a profusion of seasonal flowers. Miss May Flanders was maid of honor, and Dee Flanders acted as best man. After a wedding tour of several weeks in the north the young people will reside in Los Angeles.

Next Sunday morning the Children's Day exercises will be held in the church, and will be in charge of the pupils and officers of the Sunday school. Sunday evening the regular service will be held, with a sermon by the pastor.

Next Tuesday the regular monthly meeting of the W. H. F. Society will be held.

YOUNG PEOPLE WED AT TROPICO.
Miss Flossy Doris Flanders, daughter of Mr. and Mrs. D. B. Flanders of this place, and Warren T. King of Los Angeles, were married at 8:30 o'clock Wednesday evening in the Methodist church on Palmer avenue. Rev. W. C. Botkin, pastor of the church performing the ceremony. Although it was known that these young people were betrothed, the wedding announcement was received rather unexpectedly by the young couple's friends.

The edifice was prettily decorated for the affair and the church was comfortably filled with guests who responded to the invitations issued numbering about one hundred. As the bridal party entered the church Miss Elise Vance played Mendelssohn's wedding march. Miss Mary Flanders, sister of the bride, was maid of honor, while a brother to the bride, Dee Flanders, was best man. The bride wore a gown of hand-embroidered white muslin.

Immediately following the ceremony a reception was held at the bride's home on Brand boulevard, just north of Park avenue. Mr. and Mrs. King have gone to Lone Pine, where they will enjoy a stay of several weeks, afterward returning to Los Angeles, at which place they will make their future home.

THE ENTIRE CLASS RECEIVED NUMEROUS HANDSOME BOUQUETS.

Mr. W. T. Parker has been confined to his home for the past week, but it is hoped he will soon be able to be about.

Mr. and Mrs. Albert Reed of West Fourth street, enjoyed a delightful visit from their mother, Mrs. Reed of Los Angeles.

Mrs. E. B. Jones of San Bernardino was the guest of her sister, Mrs. J. Schremp, 1442 West Fourth street, the past week.

The Misses Sarah and Louise Toll, who have been spending some months at Ocean Park, are now occupying their home on Louise street.

Mr. and Mrs. Hugh Blue and children of Arden avenue have rented their home and have taken a cottage at Ocean Park for the summer.

Dr. E. H. Thompson and family who have been spending the past six months in Vienna, Austria, are expected home in a few days. Dr. Mortensen and family, who made the journey also, will stop over in Wisconsin where they expect to hold a family reunion at their old home.

Rev. Martin Armstrong, an evangelist of high reputation, who has just closed a very successful series of meetings in San Diego, begins a series of meetings at the West Glendale M. E. church next Sunday morning. He is accompanied by Mr. H. A. Farvar, a fine singer.

Mrs. C. E. Clay has received a letter from her sister, Miss Ione Cochran of Provo, Utah, stating that she has just graduated from the grammar school of that place, with the highest possible honors. Miss Cochran is just fourteen years of age, and has stood at the head of her class throughout her entire schooling, very seldom missing a day, and her reward for all this came in the nature of a certificate entitling her to a full course of four years' study in the high school, where otherwise she would have been obliged to pay tuition. Among the beautiful flowers received she was more than proud of the box of carnations, etc., sent from Glendale and Los Angeles.

OUTING AT VERDUGO PARK.

Almost the entire congregation of the Catholic church of Glendale assembled at Verdugo Park on Sunday afternoon and enjoyed a most delightful outing. There was such an abundance of good things to eat, that during the afternoon the surplus of goods were auctioned off by Mr. Hall, which caused much merriment and proved that should the gentleman ever wish for a new vocation he might know just where he fitted to perfection. There were songs and speeches, of course, to while away the time and the crowd was such a congenial one and such a delightful time spent that every one voted it simply a "Big Family Reunion" and wished that the same might occur more often.

GRADUATION EXERCISES OF WEST GLENDALE SCHOOL.

The following excellent program was rendered at the West Glendale school on Thursday, June 1st, in commemoration of one of the largest classes that has graduated from this school. The decorations were very beautiful, the walls of the hall where the exercises were held being hung with peacock feathers and ferns, entwined with the class colors, purple and white. The piano was almost completely covered with choice flowers and ferns, with a brilliant showing of the class color. A splendid exhibit of the entire school was seen in the different rooms of the lower floor which proved quite attractive to the crowd that gathered during the afternoon. Special attention was called to the vegetable and flower gardens of the children of the fifth grade of which Clyde Smith a

GUERNSEY JEWELRY CO.

604 W. Fourth Street

GLENDALE, CAL.

ORDINANCE NO. 139, CREATING A BOARD OF HEALTH AND DEFINING ITS DUTIES.

The Board of Trustees of the City of Glendale do ordain as follows:

Section 1. A Board of Health for the City of Glendale is hereby created, and shall consist of five members.

The Health Officer and the City Engineer shall be ex-officio members of the Board of Health.

The remaining three members of said Committee shall be appointed by the Board of Health of the said City, and shall hold office during its pleasure.

The Health Officer shall be ex-officio President of said Board of Health.

Section 2. It shall be the duty of the Board of Health to look after the sanitary condition of the City at large

and in detail, and carry out and enforce all sanitary regulations prescribed by the statutory laws, state regulations and city ordinances, relating to the sanitary conditions of the City; also to advise the Board of Trustees of steps necessary to be taken

in order to keep the City in a good sanitary condition; also to report such measures as may, in their judgment, be necessary to prevent epidemic and the spread of contagious or infectious diseases; and also to report to the Secretary of State Board of Health at

such times as the State Board of Health may require:

(a) The sanitary condition of the locality;

(b) The number of deaths, with the cause of each, as near as can be ascertained, within their jurisdiction, during the preceding month.

(c) The presence of epidemic or other dangerous, contagious or infectious diseases, and such other matters within their knowledge or jurisdiction as the State Board may require.

Sec. 3. The City Clerk shall certify to the passage of this ordinance,

and cause the same to be published once in the GLENDALE NEWS,

a weekly newspaper published and circulated in said City, and thereupon

reaffirmed the same shall be in full force and effect.

Passed and approved this 5th day

of June, 1911, by the following vote:

Ayes—Anderson, Coker, Lane, Wat-

son, White.

Nays—None.

JOHN ROBERT WHITE, JR., President of Board of Trustees of the City of Glendale.

Attest: G. B. WOODBERRY, Clerk of the City of Glendale.

I hereby certify that the foregoing Ordinance was passed by the Board of Trustees of the City of Glendale, and signed by its President at its meeting held on the 5th day of June, 1911.

G. B. WOODBERRY, Clerk of the City of Glendale.

NEW BUILDINGS.

H. D. Brown is building a \$1,000 bungalow on Burquette street, between Central avenue and Brand.

At Fourth and Central, Frank Williams is putting up a story and a half store building to cost about \$2,000.

Passed and approved this 5th day

of June, 1911, by the following vote:

Ayes—Anderson, Coker, Lane, Wat-
